

The surefish Pub Quiz Puzzle

April 2008

How to Play

Answers to each of the first nine rounds of the quiz fit into one of the 5x5 blocks of the grid – but you don't know which. Each area separated with a thick line contains a particular answer (reading left to right), which may contain more than one word. Every occurrence of a particular letter (in this case R) is given to help you.

Answers to the last, general knowledge round fit in the shaded squares, reading across, down or diagonally – these will be revealed automatically if the nine blocks are in the right order!

Sport

Name the last two men to win the Wimbledon singles championship.

Music

Name the four original members of the Traveling Wilburys other than Bob Dylan.

Picture round

Name the Anglo-Irish painter who shares his Elizabethan scientist relative's name.

Name the sculptor and typographer who lived at a former monastery in Capel y Fffin.

How is Georges Prosper Remi better known?

Celebrities
